## SUMMARY

---

A technical minded individual who attended the UC Davis full-stack web development program. Thrives in a fast-paced and cooperative environment and is passionate about the way in which technology allows the ability to tackle problems with both logic and creativity.

## TECHNICAL SKILLS

---

**Tools:** JavaScript/ES6, HTML, CSS, React.js, SQL, Bootstrap, JQuery, Command line, npm, Node.js, Express, Mongoose, Shopify

**Abilities:** Object Oriented Programming, agile and scrum methodology, full-stack web development, version control (Git/GitHub)

## PROJECT HIGHLIGHT

---

### Rogue Scavenger

Created a 2D web-based platformer game using HTML5 canvas and JavaScript.

### Remember Click

Designed a visual memory game using React.js and Sass.

### Where 2 Go

Built a web application concentrated around the use of the Yelp and OpenWeather APIs. Project was completed with a team during a short sprint.

### Teal Canvas

Constructed a full-stack e-commerce website using React.js and noSQL with teammates in an agile environment.

## RELEVANT EDUCATION

---

### University of California - Davis, Coding Bootcamp - Davis, CA

Received: 2019

- Certificate: Full-Stack Web Development

This was a 24 week intensive course in all things web and software development. I developed my skills here working in small teams in an agile environment with the goal of building fully functioning full-stack applications.

### Folsom Lake College - Folsom, CA

- Relevant courses: Intro Structured Programming | Algorithm Design/Problem Solving | Intro to CIS
